Quartz Surfaces

## RADIANTZ, ADVANTAGES THAT GO BEYOND THE SURFACE.

### RADIANTZ, PREMIUM QUARTZ SURFACES

Comprised of high-density natural quartz, Radianz<sup>®</sup> surfaces emulate the sophistication and timeless beauty of natural stone. Its superior composition provides qualities that are unobtainable in granite or marble, including resistance to heat and superficial marring. Because Radianz material is non-porous and easy to clean, it's ideal for healthcare, hospitality, food service, commercial, and residential applications.

### PRODUCT DIMENSIONS (NOMINAL SIZE)

	WIDTH	LENGTH	THICKNESS	WEIGHT
STANDARD	152cm (60in)	310cm (122in)	2cm (0.8in) 3cm (1.2in)	235kg (518lb) / 353kg (778lb)
JUMBO L	160cm (63in)	320cm (126in)		250kg (551lb) / 376kg (829lb)
JUMBO XL	165cm (65in)	330cm (130in)		251kg (575lb) / 391kg (862lb)

Slab dimension provided are nominal values. Actual usable slab surface may be slightly less per side.

### RESIDENTIAL WARRANTY

We trust in the quality of Radianz<sup>®</sup> quartz products. To ensure your satisfaction, LOTTE CHEMICAL CO.,LTD. is proud to offer a limited non-transferable 15-year warranty.

### COMMERCIAL WARRANTY

The Commercial 10-year Limited Warranty applies to Radianz<sup>®</sup> quartz that have been installed in an interior, commercial use application. For more details regarding the commercial warranty, please consult with your Radianz<sup>®</sup> distributor or contractor.

### RADIANTZ MATTE FINISH

The Radianz matte finish is a brushed texture with uniquely soft touch that offers high-quality Color consistency. The matte finish may require extra care and maintenance than the polished finishes. Due to the nature of the surface design, smudges, fingerprints, water spots and other signs of daily living might be more visible on the matte finish. It is recommended that common household spills are dried immediately using non-abrasive cleaning products and microfiber towel. For more information, please visit our website at [www.radianz-quartz.com](http://www.radianz-quartz.com).

### PREVENTING DAMAGE

Protect the surface when using metal utensils, cutlery and cookware during food preparation and avoid direct contact with extremely hot objects and caustic chemicals.
